

A Happy, Prosperous New Year To All

Lemon Grove Review

The MASON LINE

by Chan Mason

Special Hats Off Dept.
To the L. G. Lions Club for so readily accepting local responsibility for the March of Dimes Telethon which will take place over television station KFSD Channel 10 Saturday, Jan. 2, from 11 p.m. to 3 a.m. Sunday morning. The club members will be on duty at H 6-7529 where they will receive phone calls from local contributors. They will take off immediately upon receipt of the call and pick up the contributions.

They will periodically call KFSD TV and give the name of the contributors. These names will then be flashed on the scoreboard at the station and credited to Lemon Grove.

H 6-7529
1953 has been the worst polio year on record in San Diego. \$160,000.00 in March of Dimes funds was paid out for patient care in San Diego for 1953 and at the present time monthly care costs approximately \$18,000.00 per month here.

Call Sat. night H 6-7529
The average cost for a child needing hospitalization following the acute stage of polio is \$450.00 per month, an adult \$650.00 per month. Few families can afford this cost and the March of Dimes funds go to defray all or part of these costs.

H 6-7529
The majority of work done locally for the National Foundation for Infantile Paralysis is done by volunteer workers. There are only three paid workers in our local chapter and the costs of all local and administrative work is 4 per cent.

H 6-7529
Remember this, and we've been associated with March of Dimes long enough to know the facts, 4¢ of your dollar goes for administration — 96¢ is divided equally between the local chapter and the National Foundation for Research, Education and epidemic aid to chapters that have exhausted patient care funds. The San Diego chapter has had to ask for additional funds from the National Office for the past five years.

H 6-7529
Everyone connected with the March of Dimes is working harder than ever this year because we have wonderful hopes for the future, the immediate future.

Gamma Globulin was the first step in an all out offensive toward prevention. It has proved to be a stop-gap or temporary measure invaluable in lessening the paralytic effects of the disease.

H 6-7529
Now comes Polio Vaccine and after fifteen years of research and experimentation will be tested on a mass scale in 1954. If the results prove what is anticipated no mother or father need fear the crippling effects of polio in the future.

So how about it? Call the Lions Club headquarters Sat. night, H 6-7529. Don't worry about the size of the contribution. You will do the best you can. We know, we've seen you do just that for the past two years.

Trailer Park Acceptance Grows as Investors Eye 30% Returns

The trailer home park, indisputably accepted by the unforgotten public as a roadside hangover from the Grapes of Wrath era, is a multi-million dollar industry throughout the United States and has become an important part of the Lemon Grove way of life.

A nationwide statistical survey just completed revealed that 2000 ultra-modern trailer parks are currently under construction throughout the United States at an average cost of \$150,000 for a total of \$300,000,000.

And the \$300,000,000, the survey revealed, is private investment money which will earn from 18 to 30 per cent on the investment.

In California, the statistics showed the new parks will average a minimum of \$1500 "per space" for an average of 100 spaces on which returnable tented tents from people with mobile homes trailers ranging in length from 30 feet to 50 feet will run from \$40 per month to as high as \$100 per month.

4111 of the parks will have standard sewer outlets and electrical inlets for the modern mobile home which leaves the factory with king-size beds, full-size baths, lavatories, refrigerators, electric and gas kitchen equipment—and modern garbage disposal units.

Moreover, they will provide individual park-built baths, lockers, laundry-rooms, recreation halls, swimming pools, tennis courts, shuffle-board, bad-minton

Cloyed Names Citizens Advisory Body Members

Assemblyman Ralph R. Cloyed (R. Chula Vista) has named the Citizens Advisory Committee to the Joint Legislative Interim Committee on Marine Affairs and Bay Area Development.

A State-wide Committee on Small Boat Harbors, in addition to the San Diego Harbor Committee, will soon be announced. Serving under Rear Admiral Ray Tarbuck, USN (Ret.), Advisory Group Chairman, these men were named:

FINANCE: Allen J. Sutherland, Chairman, H. Philip Anwalt, Supervisor David W. Bird, John F. Borchers, Mayor Butler, J. M. Camillo, Elliott Cushman, George A. Dew, William R. Hamlin, Curtis Hinkle, George V. Johnson, James Lane, Paul Man-

LEGISLATIVE: Herbert V. Bryant, Chairman, Harry Ault, Dave Bell, N. R. Coffrain, C. M. Eichenlaub, Mayor Nelson M. Fleming (El Cajon), Kenneth D. Frye, Otto Hahn, Mayor Lloyd M. Harmon (Coronado), Walter M. Kramers, Rear Adm. S. E. Mc-

PLANNING: Adm. Tarbuck, Chairman, Charles E. Anderson, John Bate, Frank Buono, Donald C. Burnham, George Campbell, Mason Case, Walter P. Davis, Mayor George De Wolfe (Chula Vista), Sydney B. Dodds, Rear Adm. Harold F. Fick, USN (Ret.), Hap Holliday, William Hoss, Herbert Klein, Harry Krog, Pat McLees, V. E. Mattson, Henry Meyers, H. A. Noble, F. A. Richle and Walter Trepte.

Santa's 'Copter Helps Fight L. A. Fire

The helicopter which brought Santa Claus to Lemon Grove last week was given a mission of mercy this week, according to Joe Eaton, operator of the La Mesa Airport.

The helicopter was called into action to combat the forest fire raging on Mt. Wilson, near Los Angeles.

Hugh Ramsdall, who piloted Santa Claus to Lemon Grove, is flying the craft.

Ramsdall flew Santa back to the North Pole late last week, Eaton said.

The Wall Street Journal, in a copyrighted story, reported this week on the more recent developments in the world of living-on-wheels.

Says the Journal:
TRAILERS GET fancier with more garbage disposers, TV—even upstairs bedrooms.

Air conditioning will be installed in 15% of next year's models against a bare 5% in 1953. Manufacturers' efforts to sell housewives on rolling homes will include installation of garbage disposers in one-of-four; these were a rarity before. Pop can count on built-in TV in half of 1954 models, makers estimate.

Annual output of homes-on-wheels is running about 80,000. Manufacturers shower young couples with literature hitting this theme: A mobile home with one bedroom can be purchased for as low as \$3,000, with less than \$1,000 down, and easy payments over five years. One trailer maker asks: "Where else can they do as well?" Another big one counts on wanderlust spirit, plus cash payments under corporate pension programs instituted over the last few years to make potential customers of thousands of retiring workers and their wives.

Indiana's Holan Engineering, a trailer maker, offers a 1954 model

1954 March of Dimes Leaders Named

Mr. Channing F. Mason, 3280 Imperial Avenue, Lemon Grove, has been named chairman of the 1954 March of Dimes for Lemon Grove by Jerry Rudrauff, chairman. Co-chairman is Mr. Tom Warburton, 9100 Wakarusa Dr.

The drive starts January 12, and ends on February 2, 1954. Plans are nearly completed, said Mr. Mason, for the successful community events staged last year with the addition of new ones.

March of Dimes Number Is H6-7529 for Telethon

Lemon Grove Lions and Lionesses will take over the Lemon Grove March of Dimes telethon Saturday night as the polio fund-raising event gets under way for 1954.

Co-ordinated with the giant television show aired on channel 10 starting at 11 p.m. is a Lion's Club card party. Major objective of the affair is to pick-up

contributions made during the telethon show. As appeals for funds are made, the local phone number will be flashed on television screens for Lemon Grove contributors. A member of the Lions will be dispatched immediately to pick up the contribution. The local number is H 6-7529.

Channing Mason and Tom Warburton are co-chairmen of the overall March of Dimes for Lemon Grove. Warburton is Kiwanis president and Mason is past president. The telethon is under the supervision of Lion president Dr. Don Johnson.

The television show is a "first" for San Diego as well as a "first" for KFSD-TV. Nothing has ever been attempted locally on such an ambitious scale, station and "March" executives stated. Many unusual attractions are scheduled. Members of the Lemon Grove Lions Club will be interviewed during the all night telecast. Mason and Warburton will also make brief appearances.

Plans call for a four-hour show, but "you never can tell," said station manager John Merino, "if things start rolling, we may be on longer."

The show promises to be the biggest television production ever presented before local audiences. Over 500 persons will appear during the show from top radio and TV announcers and personalities to singers, musicians, civic leaders, vocal groups and bands of all kinds, night club talent, and the community chairmen of the March of Dimes.

Hollywood may produce a surprise act. The March of Dimes "poster kids" will appear plus other children helped by Dimes funds; some have acts, some will merely tell their stories.

The entire show is divided into half-hour segments complete with music, acts, stunts and fun so that a person tuning in will see a variety at all times. Many San Diegans have pitched in to make the show a success! The Musicians Union, Local 325

Community Christmas Tree Attracts Compliments

Compliments have been flooding the Chamber of Commerce on the attractiveness of the Christmas tree, it was reported by Mrs. James Pearce, secretary.

The tree has attracted county wide attention by having a feature article concerning it in the Union-Tribune.

Most business firms have indicated that the \$400 representing the total cost of the decorating was money well spent. No plans

has cleared the music, the Fire and Police departments are assisting, as well as the telephone company to provide extra phones. Charles Pratt of the Yellow Cab Company will donate his fleet of cabs to pick-up pledges called in during the evening of \$5.00 and above.

The 1954 Chevrolet that will be given away on the last night of the March of Dimes will be on view; listeners will learn how to write an entry in the Chevrolet contest.

Twelve lovely Fashionality models will answer phones and be "runners" for the show. As soon as the telethon is over the Kiwanis will take charge of the rest of the month's program. First up will be a balloon sale on the eighth and ninth of January. This will be followed by a block of dimes event on the sixteenth then there will be more balloon sales on the twenty-third and the entire project will be wrapped up with the annual March of Dimes Dance on Saturday the thirtieth of January.

The Fire Department boys under the direction of Fire Chief Pappy Henley have distributed polio collection devices to all local places of business. These will be taken up directly upon the end of the drive and will be run into the total.

Young People's groups taking part in the events will include, the Helix Min Tidiers, Lemon Grove Brownies, The Heatherettes, Lemon Grove, Vista La Mesa and Rolando Hi-Y's and school children from all the Elementary Schools and the Junior High School.

Kiwanis members, the same as last year, will take an active part in soliciting funds for this year's polio drive.

New Facilities Ready for Grove School Youngsters

When boys and girls of the Lemon Grove Junior High return to school following the holidays, they will enjoy many of the advantages offered by other school districts in the county. With the completion of the shower and locker rooms, all seventh and eighth graders in physical education classes will be able to enjoy the new facilities which will make it possible for the school to carry out a more complete and functional program for pupil physical growth and development.

As a result of the new buildings, students will now be able to dress suitably for P. E. classes, and will be able to take showers following the activities. This in turn will assist in developing strong health habits and high hygienic standards, such as all schools teach through proper physical education equipment and facilities. Prior to the opening of the new buildings, coaches and the school nurse have discussed the importance of health and hygiene with the boys and girls over a period of months.

The buildings include a coaches' office, equipment room, towel rooms, eighteen showers for boys, eighteen individual shower stalls for girls, thirty eight lockers for dressing in each shower building, and two hundred and twenty two individual baskets for clothes. Liquid soap dispensers are installed at each shower head. Laboratories are in each building, and the shower rooms are heated by radiant heating.

Towels will be supplied by the district to the students. Each student will be given a basket in an individual locker. One dollar deposit is required before lockers will be issued to students, but the deposit will be refunded at the close of the school year when lockers are turned in to the office.

Girls will dress in white gym blouses and shorts, white socks, and low white tennis shoes. Boys' uniforms consist of gray trunks, gray sleeveless athletic shirt, white socks, and tennis or basketball shoes. For chilly days, sweat shirt and pants are optional.

First Meeting For New C. of C. Board
The first meeting of the new Board of Directors of the Lemon Grove Chamber of Commerce

have been made for next year's Christmas decorations.

Citizens Advisory Committee Meets Wednesday At Grossmont

The first meeting of the new year of the Grossmont High School District's Citizen Advisory Committee will be held Wednesday, January 6, at 7:30 P.M. in the Vocal Music Room at Grossmont.

The agenda calls for discussions on High School names, or portable school units. A report by panel, teachers and students "Home Work" and committee reports.

Max Goodwin, chairman, Sites and Popular Trends Committee will be called upon to defend his committee's recommendation for the High School site in Lakeside. Carlton Conaway is chairman of the Citizens Advisory Committee.

Everyone interested in High School activities is invited to attend this meeting.

Lions Set For Big N.Y.E. Party

The last call for the Lion's New Year's Eve Dance and party at Michael's has been sounded by Bob Von Wiler, Dr. Cal Nicholl and Dr. Dave Wilhite, who are in charge of New Year's Eve festivities for the Lions.

Said they, collectively, "Response has been so great that we've been sold out for almost two weeks."

On the menu for the party are Noisemakers, Souvenirs, Favors, Hats and Caps, Dancing and a deluxe dinner all for the cost of \$5.00 per person.

Included in the cost is a bottle of champagne per couple. Dinner will have the choice of steak, fried chicken, prime ribs of beef, lobster or shrimp, with all the trimmings.

The last Lion's affair was a Halloween party held at the Morocco Club. This was the most successful Lemon Grove affair in history. The New Year's Eve party will be far more entertaining and more successful Lion's members imply.

Reservations had been accepted from the public regardless of whether they were Lion's members or not.

The rest of the three dining rooms at Michael's have also been sold out for New Year's Eve. Henry Goldy reported. We will seat celebrants in our cocktail lounge until our facilities are gone, he said.

will be held Tuesday night at 7:30 at the Justice Court with Mrs. H. I. Vernier officiating. Four new Board members will be acting officially for the first time since their election.

"You must tell your troubles tell them goodbye," is the advice of Bob Sargent, one of the bartenders in our town."

Home Economics Class Room is Popular With Students

Cakes even better than mother used to bake, are produced daily from the ovens of the home economics class at Lemon Grove's Junior High School. Here Karen Wrede illustrates how competent the teacher of these classes have become. Probably no where else are cakes pulled from the oven already iced.

(Editor's note: The photographer, Alex Jessen dreamed up the "already iced" gag. Actually the girls bake cakes just like mother.)

Such activities are carried on five days a week in the home economics class room.

Parents of youngsters at Jr. Hi had an opportunity to visit the new home economics classroom at the Lemon Grove Junior High recently when a special program and "tea" were given for them. About two hundred mothers and fathers responded to the invitation of the students to view the room, partake of the students' cookies, and enjoy the entertainment presented during the course of the evening. The girls spent two days in sponsor the evening.

Modernizing Given Boost By Greater Ease of Getting The Necessary Financing

One of the major factors causing an upward spurt in the modernizing of American homes is the increasing ease with which homeowners can get funds for this purpose.

An article in the first edition of Home Modernizing outlined the principal sources of modernizing money available to the home-owner—FHA Title I loans, open-end mortgages and mortgage refinancing.

In use for 20 years, Title I loans have financed more than \$6,000,000,000 in home repairs and modernization. Simple and easy to obtain, the Title I is ideal for smaller projects, where \$100 to \$1,000 is needed (the limit is \$2,500). There is no red tape, and the homeowner or his contractor will normally be paid the money within a few days of the application.

There is no mortgage, no costly title examination to delay matters, no extra charges or service fees. Title I loans are paid back monthly over a period of six months to three years. The interest rate—five per cent—is uniform throughout the nation.

Similar to the Title I loan is the Veterans Administration home improvement loan. The interest rate (four per cent) is lower and the repayment period longer. Few lending institutions, however, have adopted this type.

Open-End Mortgage
One of the really important steps toward bringing modernizing within reach of the average homeowner is the open-end mortgage. It is a mortgage allowing new loans or advances, with the borrower and lender agreeing that the original mortgage will secure the future advances as well as the original loan. This eliminates the delay and expense of a complete new loan.

The trend toward wider use of open-end mortgages was given a big push last year when the Dime Savings Bank of Brooklyn (which originates great numbers of mortgages) announced that it would henceforth have an open-end clause in all its mortgages.

George C. Johnson, president of the bank, said the plan will make terms considerably easier for the homeowner contemplating modernizing.

"Instead of borrowing on a short-term note and repaying it within one to three years, families can spread payments over the term of the original mortgage as yet to run," he explained. He gave this example:

A homeowner has an original five per cent \$10,000 mortgage to run for 20 years. With monthly payments of \$66 on principal and interest, he has paid off a little more than \$2,000 at the end of six years. By this time his family has grown so he needs more room. It will take \$2,000.

He fills out a simple form at the bank. If the application is approved, the bank hands him a check for \$2,000; in turn, he pays \$80 to cover costs of legal work, title insurance and other incidentals. He agrees to repay this \$2,000 loan and the interest on it with regular monthly payments of \$16.58 instead of the \$63.88 per month required on three-year modernization loans.

The \$16.58 added to the \$96 monthly payments on the original mortgage brings his total payment each month to \$112.58.

Mortgage Refinancing
If a homeowner is planning a big project and other financing is unavailable or impracticable, he can turn to new mortgage financing. The problem, if his place is free and clear, is simply to get the best mortgage terms available.

If he already has a mortgage, however, the solution may be refinancing—getting a new mortgage large enough to pay off the old one and to provide the money needed for modernizing at the same time. Refinancing requires two or three weeks for processing, including a complete title examination, and the homeowner will also run into the usual servicing costs of a new mortgage.

Holiday Spirit Started at Davis Food Center

"I think I got the holiday spirit this year when I started my week-end shopping at Davis Food Center," said Ethel Zellmer, 4323 Merritt Street, here in Lemon Grove.

"The brightly decorated store, and soft, holiday music certainly gave my spirits a boost. The low prices at Davis, the best selection, and friendly personnel contribute to my morale all the time. I like to shop there."

The Zellmers, seven of them, have been living in Lemon Grove for nine years. George, the head of the family works for the Gas and Electric Company. Others making up the swell family are Michael, 14; Garry, 12; Catherine, 9; Susan, 7 and Mary 3.

"Now you know why we keep our eye on food costs," Ethel chuckled. ADV.

Rebekahs Plan New Year's Card Party Thursday

Mesa Jewell Rebekah Lodge No. 409 will hold a New Year's Eve card party at 8263 La Mesa Blvd. Thursday evening at 8 p.m. December 31. Cards of your choice will be played. Mrs. Penelope Adams, Noble Grand, will be chairman and refreshments will be served by the members and each one to bring a pie or cake and there will be no admission charge. All Odd Fellows and Rebekahs and their friends are invited to attend.

DICK POWELL in VARIETY is down to three actors and 127 on the employment situation at lawyers. FORTNIGHT. RKO studios: "Their contract list Advertising Doesn't Cost. It Pays."

MOTHER'S REUNION WITH SON

TEARFUL BUT HAPPY reunion occurs in San Francisco's Letterman Hospital when Mrs. Lucy O'Brien, Battle Creek, Mich., meets polo-stricken soldier son, Louis, for first time in 7 years. Picture was made Christmas Eve at Louis' bedside. (International)

ADDING ANTI-FREEZE

If you're going to add a permanent-type anti-freeze to your car's cooling system it may not be a very permanent one unless you first check all water connections for leaks, replace defective hoses and tighten hose clamps. It's also a good idea to check the thermostat and flush the entire cooling system with clean water before adding anti-freeze.

Grove Man Gets Navy Advancement

NEW ORLEANS, La. (FHTNC)

—Jack T. Homer, son of Mr. and Mrs. Caryl S. Homer, and husband of the former Miss Betty J. Brilab of Houston, Tex., has been advanced in rate to machinist's mate second class, USN, while serving aboard the escort vessel USS Kenneth M. Willett.

The USS Kenneth M. Willett is attached to the Eighth Naval District, and used to take Naval Reservists on 14 days annual training duty between New Orleans and various Caribbean ports.

Before entering the Navy, Homer was graduated from Exeter Union High School.

'Platter Parade'

By BOB TURNBULL

Platter Chatter. . . This week, for the first time, I'm going to tell you of some records that I enjoy and think that you should have, since I think you'd enjoy them too. Some are old, some are new; some are cracked, some are blue; some are sung, some have a hot beat; some are strictly musicals, some are sweet. Well anyway, enough of this corny poetry of mine, let's get on with some titles. Of course there is always

the incomparable "Desert Song." Now our theme switches from sand dunes to sandy surfs and we find ourselves on the plush isle of Trinidad. Brunswick recordings has an album titled "Songs of Trinidad," by a calypso singer with the name of Wilmoth Houdini. The album is particularly enchanting because this calypso singer made up the words as he was recording the records.

Next our thoughts wander to far off Peru where we hear Yma Sumac sing the "Voice of the Xtabay." The only gal in the world that can sing four octaves. Now before you know it we're in sunny Oklahoma, U.S.A., where Rodgers 'n' Hammerstein II have thrown together a delightful album titled "Oklahoma." (On Decca records.) The new: "The White Cliffs of Dover," with the Checkers. The Blue: "The Christmas Blues," by Dean Martin. The cracked: "Saturday Night Fish Fry," Louis Armstrong. The Sung: "Rags to Riches," Tony Bennett. Hot-Beat: "Istanbul," Joe "Fingers" Carr. Musical:

Tastes As Good As It Looks

It's like looking through Alice in Wonderland's rose-colored glasses to see the fresh pears in this Raspberry Pear Mold—all thanks to raspberry-flavored gelatin. Entirely apart from the Alice in Wonderland touch, you will appreciate the make-it-ahead, all-in-one dish features that fruit-flavored gelatin gives this refreshing, economical dessert. And with fresh pears in season, the wise homemaker makes use of them in all their juicy, flavorful glory, in as many ways as possible.

Raspberry Pear Mold
1 package raspberry-flavored gelatin 1 1/2 teaspoons lemon juice
1/2 cup hot water 1 1/2 cups ginger ale
1 cup diced fresh pears
Dissolve gelatin in hot water. Add lemon juice and ginger ale gradually. Chill until slightly thickened. Then fold in pears. Turn into 1-quart mold. Chill until firm. Unmold and garnish with green grapes, pear slices and green leaves, if desired. Makes 6 servings.
Note: For larger mold, double all ingredients.

Bob Curry Promoted To Sergeant in Korea

25TH DIV., KOREA—Robert H. Curry Jr., 21, son of Mrs. Ann K. Curry, 8361 Golden Ave., was recently promoted to sergeant while serving in Korea with the 25th Infantry Division.

Rushed to Korea during the early days of the conflict, the 25th took part in some of the most bitter fighting on the peninsula. It is now undergoing intensive post-truce training.

Sergeant Curry, who arrived in Korea in December 1952, is a squad leader in Company E of the 27th Infantry Regiment and wears the Combat Infantryman

Badge and the Purple Heart. He has been in the Army since July 1949.

HAPPY DAYS

Yes, may every day of 1954 be a happy one.
Grove Pastry Shop
7815 Broadway H6-1974

Dance-time. . . . This week's won as the letter to use in telling you some of the gang that was catting around the L. M. Youth Center Wednesday 'fore last to the music of Bill Russell's jazzy band. The S's being: Dick Skrivaneck, Larry Shaw, Lorelei Shaw, Betty Jo Soderberg, Ronny Soderberg, Jack Sanders, Norm Schoepf, Dick Sheffield, Don Sleet, Jerry Skei, Dick Slobig, Janet Sloan, Barbie Scott, Bernie Stoloff, Pinky Sparkman, Sandy Hessen, Sally Culver, Mel Spooner, Joan Spam, Bobbie Sable, Elsa Saubensak, and Connie Sastorakos.

Contest-time. . . . The answer to last week's quiz was (C) shining. The question was 'what is the meaning of Rutilant.' Congratulations goes to Mr. Lanny Ross. Lanny is 18 years old, graduated from Kearny in '52. He is currently working at Conair and plans to go to U.C.R. (University of California at Riverside) at the beginning of the next school year. He has already spent one year at State College. Lanny has brown hair 'n eyes, stands 5 ft. 10 inches tall and strains the springs at 170 pounds. His favorite pastime is working on his '51 Chevy Bel-Air. Lanny is a new resident to Lemon Grove having moved from Linda Vista five months ago. Lanny told me that as soon as he read my article he knew the answer and called me right away. He got there first with the rightest. What happened to you? Question for this week: (You must answer all of these correct.) It concerns music, singers, or band leaders. (1) Who is Miss Mason-Dixon? (2) What male singer was a former parking lot attendant? (3) Who is generally regarded as the first lady of song? and (4) Who is the Prince of Wails? Who's going to win this week? How 'bout making it you?

Drive carefully, remember, again it's another holiday.

Notes
Civil Defense

By Charles Gurley
Roy E. Nielsen has accepted the job of Deputy Zone Warden in charge of Engineering, according to an announcement made today by Dr. Frank B. Gigliotti, Zone Warden for Lemon Grove.
"Many of you know Roy Nielsen only as a real estate man but he is also an Engineer, a graduate of Iowa State University in both Industrial and Mechanical engineering and held important jobs with Westinghouse Electric and Ford Motors. He also had considerable experience in building and construction."
"Coming to Lemon Grove 7 years ago, he has become well acquainted with our locality and well able to handle any problem with which we might be faced. We are indeed pleased to be able to make this announcement," Dr. Gigliotti said.

Grove Teachers To Hear Clinical Psychologist

Teachers in the Lemon Grove School District will have an opportunity to hear Dr. Fannie Montalto, clinical psychologist from San Diego, when they meet for the fourth in a series of in-service classes at the Junior high school on Tuesday, January 5, at 3:15 p.m. In keeping with the theme of the classes, "Guidance, Practices and Techniques," Virgil Howes, guidance coordinator for the County Schools, has invited Dr. Montalto to speak to the teachers on further practices and techniques which can be used to advantage in the classrooms.

Dr. Montalto obtained her AB Degrees at Hunter College in New York, and later was granted both a Master's and PhD Degree from the University of Ohio at Cincinnati. There she was on the medical staff working in children guidance. Following eleven years of public school teaching, she served as school psychologist in Cincinnati before teaching clinical training at UCLA. Now in private practice in counseling, Dr. Montalto is also psychologist for the Children's Home here, and the county schools have availed themselves of her services.

In-service classes for teachers in the Lemon Grove District are held on the first Tuesday of each month. A study of guidance and its various implications was chosen for emphasis this year when it was felt that it was in this field that the greatest benefit for children could be had. The year's theme for the Lemon Grove District Teachers Association is, "All Children Deserve Good Teaching."

Educational Creed Gives Guide for Better Education

PART ONE
The Citizens' Educational Creed, prepared by Phi Delta Kappa, a national professional education fraternity for men, has been written so that citizens can read and consider the part that they are playing or should play in education of today's youth. Part I, printed this week, deals with the viewpoints to be maintained by community citizens. Other parts of the Creed will be published from time to time by this paper.

Part I . . . The Citizens' Educational Creed. As a citizen of the community, I will maintain the following point of view: I believe that

1. Public education is indispensable to the preservation and growth of American democracy.
2. Continuous personal and financial support of public education is the responsibility of every citizen.
3. Public education should guarantee the opportunity of free education for every boy and girl.
4. Although public education is

a state function, it should be controlled locally through lay boards selected by the people.
5. Public education must continuously change to meet the personal, social, and economic needs of individuals.
6. Public education must be founded upon basic moral and spiritual values, while reaffirming the traditional American principle of separation of church and state.
7. Money spent wisely for public education is an essential investment in the future welfare of the nation.
8. The chief responsibility of public education is to prepare boys and girls for full life and active participation in the American way of life.

JUNE HAVER, who spent six months in a convent before deciding to give up the idea of giving up, was gradually easing back into the old familiar swing of things. She showed up at a huge testimonial dinner for movie mogul Darryl F. Zanuck in a chic evening gown, hair curled and lightened in distinctly un-nunlike fashion. FORTNIGHT.

Grandparents Mr. and Mrs. John B. Gambling and parents Mr. and Mrs. John A. Gambling grin at the antics of the two youngest Gamblings. In the column below, Mrs. John A. explains how she helped her son continue to feel important in the family when his baby sister was born.

Speaking of Families

By BETH JUDSON
This little Gambling isn't on the radio . . . yet. But odds are that he will be. His grandfather is that perennial favorite, John B. Gambling. His father, John A. Gambling, is now a popular radio personality, too. John R., of course, will have to wait awhile. He's only 2 1/2!
The big interest in Johnny's life at the moment is his baby sister. He climbs up his portable steps and "helps" with her bath . . . clutters her bathnet with his celluloid fish . . . and shows her his favorite toys. Whenever the family talk about going out, he wants to know "Can our baby go, too?"
From time to time, Johnny does show a flicker of resentment. That's only normal. But the Gamblings have handled this problem so understandingly that the very start that the tot basically feels loved and secure.
About four months before the baby was born, attractive, dark-haired Sally Gambling took her son into a kind of partnership. "We're going to have a baby," she told him, casually and naturally, "and it's growing inside of me right now."
From then on, they often talked together about what they'd do when the baby came. Thus, the new one became a bond between
parents and child—rather than a dividing wedge. And Johnny got used to the idea that someone else would take his place as baby.
But where would the baby sleep? Was Johnny to be cast out of his cozy room close to his parents? Here's the way his mother handled that: "No more cribs for you. They're for babies. You're big enough now to have a real bed in the room across the hall."
Johnny felt deliciously important! Well before the baby arrived, he was feeling right at home in his own new room.
After the baby came, with an consideration for Johnny's feelings, the Gamblings were careful not to rush over it when he was around. In fact, they took pains to focus more attention on him than ever.
"I can't say I enjoyed dropping my housework to make sandwiches," smiled Sally Gambling, "but it seemed a small price to pay to help Johnny understand we loved him just as much as ever."
Children need to be reassured that they still hold the same place in their parents' affections. The young John Gamblings, appears, are doing a mighty successful job of it!
This column is sponsored by The Family Services Association, 645 "A" St., a Red Feather United Success Drive Agency.

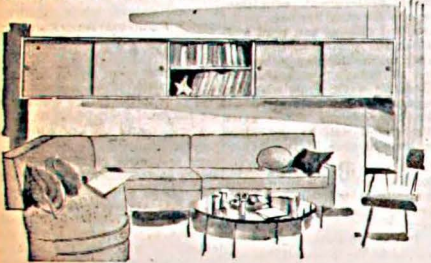

The Home, Too, Is 3-D; Check Your Walls to Find Storage Possibilities

The solution to most storage problems, according to an article in the current edition of Home Modernizing magazine, lies in remembering that a home, like the newest movies, is 3-D. Generous storage facilities can be added to any home without sacrificing vital square footage of floor space by looking up—along lazy walls.

The magazine lists these standards for determining the adequacy of storage space: Size—storage units should be big enough to take care of all present and foreseeable needs, accessibility—proper design eliminates the frustrations of groping into blind corners or having to reach over a large object to find a small one; efficiency—storage units should be planned to accommodate the objects that will be stored there with a minimum of waste space; flexibility—as years pass, habits of a family change, its possessions change and increase; storage facilities should be planned to allow adjustment for these changes.

A blank wall in this living room (above) can be made to provide generous storage facilities in the manner shown in the drawing below. The same solution can be applied to any room in any home.

Exams Set for Early Part of 1954

Civil service examinations for various technical jobs were announced today by the State Personnel Board.

Applicants have until January 8 to file for the following examinations: senior bridge engineer, salary \$613-\$745 a month; supervising bridge engineer, \$710-\$862; assistant mechanical engineer, \$415-\$505; and foundation driller, \$295-\$358.

Applications for assistant hydraulic engineer will be accepted until January 15.

Senior bridge engineers must be civil engineers with two years of bridge engineering experience. The supervising jobs require, in addition, two years' administrative experience.

Applicants for the assistant mechanical and hydraulic engineer examinations need two years' experience and graduation from college with major work in mechanical or civil engineering.

One year of experience as a helper on foundation or well drilling equipment is required to qualify for the foundation driller examination.

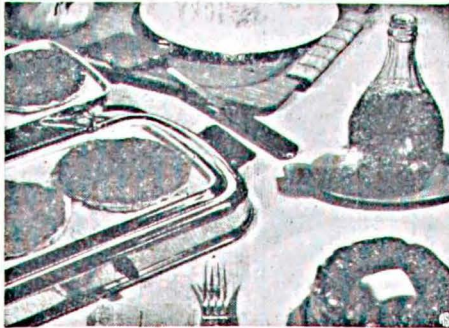

In other fields, the state has scheduled examinations for assistant permanent disability rating specialist, paying \$395-\$481, with an application deadline of January 8; and property inspector and appraiser, \$325-\$395, and state park lands purchasing officer, \$481-\$584 both with a final application date of January 15.

Official application forms and additional information are available at State Employment Office, Columbia Street, San Diego.

Vogues to Hold Monday Meeting

The Vogue Section of the Lemon Grove Woman's Club held their Christmas party recently at the home of Mildred Kish. Mr. Robinson, from the Dyson-Roberson Display House, San Diego, demonstrated many beautiful Christmas decorations and centerpieces. "Santa" arrived during the festivities to distribute gifts

When the Crowd Drops In

Impromptu entertaining today is made far simpler and more gracious with the help of modern equipment such as the electric grill. Plugged in right at the table and ready for service, the grill is a wonderful convenience for cooking and serving such as today's "All-American Meal" of pancakes and syrup. The pancakes can be baked while you chat and served piping hot. To spark the conversation, try this very special, quick variation of ready-mix pancakes, served, of course, with butter and warmed maple-blended syrup.

Orange Griddle Cakes
1 cup ready-mix for pancakes
2 tablespoons sugar
1 egg, well beaten
1 cup milk
2 tablespoons shortening, melted
1 teaspoon grated orange rind
Maple-blended syrup

To pancake ready-mix, add sugar; mix lightly. Combine egg, milk, shortening, and orange rind. Add to pancake mixture, beating until smooth. Bake on hot lightly greased griddle, turning only once. Serve hot with butter and maple-blended syrup. Makes about 12 or 14 griddle cakes.

to each member. Punch, sandwiches, cookies and candies were served.

The Vogues will hold their next business meeting on January 5, 1954, in the Club House. Each member is asked to bring to the meeting a New Year's Resolution on self-improvement. They will then be turned over to the Ways and Means Committee, who will collect fines on all broken resolutions at the February meeting.

The March of Dimes has paid for 4,145 scholarship and fellowship awards for medical study and research during the past 16 years.

Greyhounds to Race Again Friday

AGUA CALIENTE — Greyhound racing, a summertime sports favorite of Southland fans the last seven years, will diversify Winter entertainment offerings when Caliente Greyhound Club pulls the curtain Friday night, January 1, on its inaugural 63-night Winter meeting.

Caliente, which experienced a profoundly successful 1953 meeting both in wagering and attendance, has lined up a highly attractive Winter season and

it promises to establish new marks for the border oval.

A ranking feature of the Winter meeting will be the new glass enclosed and temperature-controlled grandstand. This structural improvement is designed to convenience Winter race goers and is only one of many progressive moves planned for Greyhound racing fans for the 1954 season.

"There are two kinds of men who never amount to much: Those who cannot do what they are told, and those who can do nothing else."

Garden Section of Women's Club Meets Monday

The Garden Section of the Lemon Grove Woman's Club will hold their regular meeting January 5, at 1:30 p.m. in the Club House.

Mrs. R. I. Seder will be program chairman. She will present Mr. Byron Lindsey, who will speak on roses from planting to prunings. Members and friends are invited. Mrs. Schnell is chairman.

Assembly of God Church to Hold Sunday School

Rev. and Mrs. Carl Chunn announce the opening services for Sunday School and morning wor- ship on January 3, 1954, at 9:45 a.m. and 11:00 a.m. respectively, at the Lemon Grove Assembly of God Church.

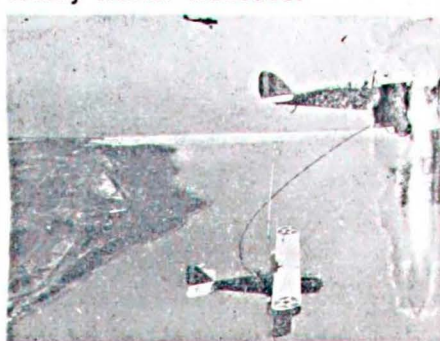

The VFW hall in Lemon Grove is the temporary location of the new Assembly which began hold- ing Sunday evening services last September.

Evangelist Irene Fox will also be conducting a Revival Meeting beginning the same date. Services will be held nightly except Wednesday and Saturday at 7:45 p.m. Evangelist Fox has been preaching the gospel for about 17 years, and God has blessed her ministry in a special way in many outstanding revival meet- ings.

A cordial invitation is given to all to attend the Revival Meet- ing and the regular services of the Lemon Grove Assembly of God.

RICHARD McGEE, Director of the State Department of Correc- tions, explaining the problem of getting new prisons built: "There's no pressure from the voters and the convicts don't have a lobby or alumni associa- tion. . . . Fortnight.

Army Air Corps Completes Tricky Aerial Maneuver

Thirty years ago, on June 15, 1923, San Diegans witnessed the first successful in-flight refueling of an airplane. This photograph from the historical collection of Union Title Insurance and Trust Company shows the precise moment when contact was made for the first time.

The plane being refueled was piloted by Capt. Lowell H. Smith, famous as an around-the-world flier, with Lt. John P. Richter hold- ing the refueling hose. In the other plane were Lt. Virgil Hine and a well known San Diegan — Lt. (now Col.) Frank W. Seifert.

The exacting operation was completed at speeds of about 125 miles per hour, and during the 37 1/2 hour period of the experiment, 47 successful contacts were made — establishing a world's aerial endurance record.

The tests were conducted by Army Air Corps units, then based at Rockwell Field, site of the present Naval Air Station at North Island. The planes were DeHavilland 4-Ds, assembled at Rockwell Field especially for this refueling experiment.

Safety Patrol Boys Get

Special Xmas Party

Sixty boys from School Safety Patrols in the Lemon Grove Dis- trict enjoyed a Christmas party December 23, at the Pistol Range of the State Highway Department in San Diego. Forty of the young- sters who help direct traffic at dangerous intersections near schools here were from the Lem- on Grove Intermediate School and Golden Avenue School. From Vista La Mesa School came twenty boys to join in the fun with other patrol members from the county schools. John Wright sponsors the group at the first two schools; Robert Masters di- rects them at Vista La Mesa.

From nine until three that day they ate their fill of hamburgers, potato chips, and other good things which make up what a boy calls a fine picnic. Entertain- ment was furnished by members of the Highway Department and the patrol members joined in many games of sport, sharing the prizes offered.

The party is held annually in cooperation with local P.T.A. units which help to carry the cost of the outing. Units partici- pating from Lemon Grove includ- ed the Golden Avenue P.T.A., the Vista La Mesa P.T.A., and the Lemon Grove School P.T.A.

Mrs. Morse Visits Grandson for Xmas

Mrs. Randolph Morse, 8354 Golden Avenue, Lemon Grove, visited her son, Ted Morse and

Career Posts Offered Young Accountants

State career positions starting at the level of Junior Accountant-Auditor are available to members of college graduating classes of '54, who have taken the pre- scribed courses, the State Person- nel Board said today.

The positions are largely in Sacramento, San Francisco and Los Angeles, but also exist at various other points in Califor- nia. They pay \$310 to start, with periodic increases to \$341 and fre- quent opportunities for advance- ment.

Work is chiefly with the Board of Equalization, Department of Finance and Department of Em- ployment. The state is especially eager to get promising young ac- countant-auditors who intend to work up to major administrative posts, the board said.

Applicants must either com- plete a prescribed professional accounting curriculum or have sixteen semester hours of pro- fessional accounting courses. In either case, the work must have included elementary and ad- vanced accounting, auditing, cost accounting and business law.

Official applications are avail- able at college placement offices and at State Employment office on Columbia Street in San Diego.

ROBERT GROS, Palo Alto, utility exec. — "Thank goodness we don't get all the government we pay for."

grandson Stevie, now residing in Redding, California for Christ- mas. She made the trip by plane.

Wood Floors Eventually Need Work; Here Are Tips on Reconditioning

Occasionally—depending on the finish, amount of maintenance and traffic—wood floors need reconditioning. The photographs below give pointers from Home Modernizing magazine on how to proceed.

Sink protruding nail heads with hammer and nail set, then fill holes; eliminate squeaks by nail- ing to joist nearest the squeaks.

Next, sand the floor with a drum-type sander; make first strokes at an angle to the boards, the second strokes at right angles to first.

A disk-type sander like this one is used for small areas that the drum-type sander can't reach, such as around walls, stairways.

Finish by rubbing with steel wool, sweeping and then apply- ing two coats of the finish—floor seal, varnish or shellac.

Thin Plywood Faces Can Make Flush Door From Panel Type; Here's How

Even the most battered old panel door can be converted to a smart, modern flush door with plywood by following the steps out- lined in the photographs below from Home Modernizing magazine. It's much cheaper than a new flush door and just as handsome, pro- vided the job is done right. Make sure the old door is sound.

Free Shows, Free Dinners For Review Readers

Columbine for Your Shade Garden

Columbine is one answer to the problem of what to plant in the shade garden in Lemon Grove. First and foremost, Columbine is a shade loving woodland plant. It thrives under widespread shade trees that spell the doom of so many less hardy shade plants. It is a true perennial that will give years of satis-

COLUMBINE

faction and the graceful flowers borne on long wiry stems make an excellent basis for a Victorian bouquet.

Due to the strong growth of Columbine, the leaf fall from deciduous trees will not smother out the plants. Bloom is heaviest

after Baby Primrose and Cineraria are about finished and before Tuberos Begonia and Fuchsia are starting a good show of color. When the blooming period is over, there is a beautiful textured leaf pattern to lend beauty to the garden.

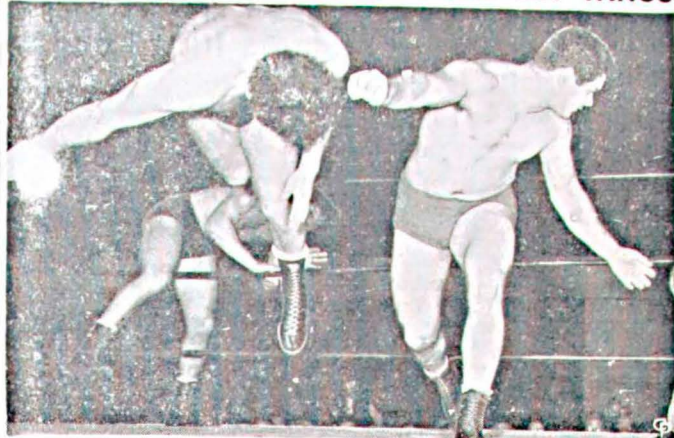

Columbine grow 2½ to 3 feet tall so they should be set toward the rear portion of the bed. Staking is seldom needed but in a narrow bed or in extra dense shade it is good insurance to stake the main stems to prevent rumpling. Try scattering a few plants through Rhododendrons or Camellias or behind a bed of Azaleas as they will lend a graceful woody air to the planting. Try it.

Cineraria or Primula Obconica with their lower growth and heavy rich colors are beautifully set off against a background of Columbine. Both items are best planted now to develop growth for heavy bloom next spring. A border of Primula Malacoides would complete the picture to give good compatible shade area plant material that should create a glowing-growing garden picture.

Experts to Push Insect Control Needed

Entomologists are being recruited to assist in the Department of Agriculture's insect control-eradication programs, the State Personnel Board said today. The board also announced examinations for three other classes of jobs, medical consultant, bee inspector and dentist.

This position requires college graduation with a major in the zoological sciences and specialization in entomology.

Physicians with five years' experience in the practice of medicine may qualify for the examination to be given for medical consultant, bureau of vocational rehabilitation. Deadline for application is January 7. Salary is \$782 to \$950.

Applications for deputy state bee inspector will be accepted until January 8. Salary range is \$295 to \$358. Applicants need one year's experience in the enforcement or administration of apiary inspection laws or one year in commercial bee keeping.

The state also needs dentists at a salary of \$530 to \$654, and senior dentists, \$676 to \$821. January 12 is application deadline.

Application forms and additional information are available at State Employment Office on Columbia Street in San Diego.

Mechanical Aid To Reduce County Work Load on Documents

All documents, other than vital statistics filed with the County Recorder will undergo mechanized indexing starting this week. The Board of Supervisors made provision for the project in its current budget, but changes in procedure that have been found advisable by Recorder Roger Howe and T. M. Hegland, chief administrative officer, required allocation of an additional \$7,097 for purchase of equipment. The new program will reduce 62 procedures now performed in

Are You Guilty Of Doing Things Like These..

- SPEND THREE HOURS BARGAIN HUNTING TO SAVE 25c?
- WASTE A DAYS TRAVEL IN TIME AND EXPENSE IN ORDER TO CATCH SOME OUT OF TOWN BARGAIN WHICH MAY OR MAY NOT BE A 'BARGAIN' AT ALL?
- DRIVE 9 MILES TO BUY EGGS FOR A FEW CENTS LESS THAN YOU CAN GET THEM AT YOUR LOCAL STORES?

Most of us are guilty on one or more counts and we thereby exhibit an excellent example of false economy. In most cases we spend twice as much in actual cash, time and shoe leather as the few pennies we are supposedly 'saving.'

Public Notices

Re the Construction of Sewerage in the Lemon Grove Sanitation District, Area No. 23
Declaration of Intention
WHEREAS, Jean L. Vincenz, Engineer for the above Sanitation District, has furnished to this Board plans and specifications, bearing project number 7614, for the construction of a sewerage system in a portion of said district, which are on file with the Clerk of the Board of Supervisors of San Diego County as Document No. 163608, together with careful estimates of the costs and expenses of such work;
NOW THEREFORE, on motion of Mr. Bird, seconded by Mr. Gibson.

IT IS HEREBY RESOLVED that public interest and convenience requires and it is the intention of the Board of Directors of the Lemon Grove Sanitation District to order the following work to be done and improvement to be made in said Sanitation District to wit:
The construction of sewers and appurtenances in MOUNT VERNON STREET between the Southern prolongation of the Western line of lot 48 of Bond Terrace, Map No. 2255 and the Northern prolongation of the Eastern line of Lot 55 of Lemore, Map No. 1459.
EL PRADO AVENUE between the Southern line of Mount Vernon Street and the Western prolongation of the Southern line of Lot 52 of El Prado Tract, Map No. 1320.
All of the said work hereinbefore generally described shall be constructed in the manner, at the locations, within the limits, of the materials, and of the dimensions as shown upon and in accordance with the plans, profiles, drawings, typical cross-sections and specifications thereof, bearing project number 7614, contained in Document No. 163608, on file in the office of the Clerk of the Board of Supervisors of San Diego County, and copies of which are on file in the office of Jean L. Vincenz, Engineer of said Lemon Grove Sanitation District, and by this reference thereto, all said plans, profiles, drawings, typical cross-sections and specifications are made a part hereof.

The said Board hereby determines and declares that serial bonds shall be issued to represent each assessment of twenty-five dollars or more remaining unpaid after the full expiration of thirty days from the date of the warrant, to represent the expenses of said work and improvement. Said serial bonds shall extend over a period ending nine years from the second day of January next succeeding the next October 15th following their date, and an even annual proportion of the principal sum thereof shall be payable by coupon on the second day of January every year following the next October 15th after their date until the whole is paid. Said bonds shall bear interest at the rate of six percent per annum, interest payable semiannually by coupon, on all sums unpaid until the whole of said principal and interest are paid. Said bonds shall be issued and the principal and interest thereof shall be paid under and in pursuance of the Improvement Act of 1911 and amendments thereto.

That the contemplated work and improvement hereinbefore mentioned is in the opinion of said Board of more than local and ordinary public benefit, and the expenses of such work and improvement are made chargeable upon the district hereinafter described, and said Board does hereby declare said district to be the district benefited by said work and improvement, and to be assessed to pay the costs and expenses thereof. Said district is described as follows, to wit: All that real property in the County of San Diego included within the exterior boundary lines of said district, as shown upon that certain Map bearing project number 7614, entitled "Plan showing the extent of the territory benefited by and to be assessed to pay the costs and expenses of the construction of sewers in Mount Vernon Street, et al. in a portion of the Lemon Grove Sanitation District, Area No. 23," indicating the exterior boundary lines of such district, which map, approved by the Board, is on file in the office of Jean L. Vincenz, Engineer of said Sanitation District, 4005 Rosecrans, San Diego, Calif., and a copy of which is on file in the office of the Clerk of the Board of Supervisors of San Diego County as Document No. 163608, excepting therefrom all public streets, roads, alleys, avenues and highways. Reference is hereby made to said map for a particular description of such district.

NOTICE IS HEREBY GIVEN that on Tuesday, the 12th day of January, 1954, at 11:00 o'clock a. m., in the Board of Supervisors' chamber in the City and County Administration Building, 1600 Pacific Highway, in the City of San Diego, California, any and all

Job Openings at Institutions for Grove Residents

California state institutions will soon need both male and female help in several lines, the State Personnel Board said today.
Applications will be accepted until January 7 for industrial therapist, which pays \$325 to \$395 a month, and electroencephalographic technician, salary \$281 to \$341. Industrial therapist applicants need one year of clinical experience or college graduation in recreation, social group work, or an allied field. One year's experience is required for the technician examination. Men with two years' working experience, which may include military experience, may apply for positions as correctional officer in state prisons. College training may be substituted for the required experience. The jobs pay \$310 to \$376. Application deadline is January 8.
Applications may be submitted until January 15 for women's parole officer, paying \$376 to \$436, and requiring three years' experience as a social case worker. The same deadline applies to assistant departmental food administrator, salary \$481-\$584.
Examinations with an application deadline of February 11 are announced for counselors for deaf and blind schools, at \$295 to \$358. An examination for

DR. GEORGE WAYNE, director of the Los Angeles Neurological Institute, speaking before the Southern California Society for Mental Hygiene. Mechanization has reached such proportions that more and more people are becoming obsolete. We find new and peculiar occupations developing, both because society is making room for aberrant professions and because individuals who want to cut a swath in the world must seek new ways of doing so. I am thinking, for example, of private eyes, pitchmen, bookies, parking lot tycoons, disk jockeys, five percenters, Los Vegas Horatio Algiers and dianetics auditors." FORTNIGHT.

You Be the Judge

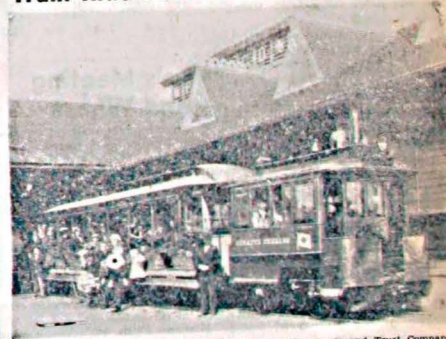

WHAT OUR COURTS DO FOR YOU
Today you may regard court trial as a game which strangers and their lawyers play, a contest. You may think you have little personal stake in it.
You say: "What's it to me? A trial has to do with other people's troubles? Me? Well, I mind my own business. You'll wait a long time to see me in court."
Your Stake
"It may be news to you," let us tell you, "but you too have a stake in a court, each time it opens its doors, a stake as real as your tax bill."
"Oh, I know," you say, "you really mean, that I should take an interest in justice? But courts don't affect me personally."

Yes, courts do things to you personally. They influence how you live, do business, pay taxes, hold jobs, and raise your children. After you die, they go on. They say what happens to your property, and what comes of

your hopes for those you love. And this even though you never look inside a court in all your days.
Your Rights Defined
"You mean," you ask, "that the law a judge lays down for other people may apply to me?"
Yes. Suppose a stranger files his income tax form, but the government says, "You owe us more." So they go to court.
Suppose the judge says the stranger owes more. Well, then you and all people like this stranger may get a bill for more taxes.
So, this stranger stood in for you in court. For in defining his rights and duties, the judge was doing the same thing for thousands of other people like him. So what goes on in court is not mostly other people's troubles. But yours, too. For we believe in this country that laws should apply uniformly. What the law is for this stranger is the law for all people, including you.
NOTE: The State Bar of California offers this column for your information so that you may know more about how to act under our laws.

San Diego County Historical Scrapbook

Just A Short Train Ride To The Boat

From the Historical Collection of Union Title Insurance and Trust Company
The Pacific Coast Steamship Company played a vital part in the growth and development of San Diego. In the early days, the company-owned ships transported both passengers and freight to San Diego from northern ports. Shown here in a photograph from the historical collection of Union Title Insurance and Trust Company is a group of such passengers in 1895.
Because of mud flats fringing the harbor, a long pier was built out to deep water for the accommodation of ships; a tiny steam train saved the passengers the long walk in to the steamship company terminal and warehouse building at the foot of Fifth Avenue.
Oldtimers will remember the famous Pacific Steamship Company ships: "Corona," "Santa Rosa," "Queen," and the famous old side-wheelers, "Ancon" and "Orizaba."
When the municipal pier was built in 1915, the little steam trains were no longer necessary. However, a remnant of the old terminal building still stands at the foot of Fifth Avenue.

May Be Deported

ADMITTEDLY worried about reports she faces denaturalization action, Polly Adler, Burbank, Cal., former New York vice figure, has asked her lawyer to confer with immigration officials. (International)

Robert Chase, Western Electric equipment installer temporarily assigned to the local dial office, is shown performing one of many steps required in rearranging equipment to the forthcoming seven digit dialing pattern. Homeland exchange becomes Hopkins with TWO LETTERS instead of one. Thus H 6-1168 becomes HO 6-1168.

Pacific Telephone's project to change Lemon Grove's telephone numbers to seven digits on January 24 shifted into high gear this week. Not only Lemon Grove, but all local numbers are to be changed.

Manager Sidney Campbell said 15 Western Electric installers have been temporarily assigned to the local dial equipment office to work on the project.

They are supplementing regularly assigned telephone switchmen in rearranging dial switches to the seven digit dialing pattern. Some new dial equipment also is being placed.

The manager pointed out that the Homeland 6 prefix will be changed to Hopkins 6 and Homeland 9 will be changed to Hopkins 9 on the 24th.

TRAILER PARKS TO STAY

Continued from Page 1
with 120 square feet of attic storage space, two bedrooms upstairs and one down, step-down living room, full bath.

are the only adjectives adequately describing the modern trend in trailer park development which incidentally, is being favored by civic, community, county and State blessings throughout the country, whereas two years ago it was rule-of-thumb with town councils and supervisors to turn their official backs on anything that sounded like the word "trailer."

The official change in attitude is founded in commercial fact. Last March, a U. S. Census Bureau revealed that the average per capita income of a trailerist, or a mobile home dweller, was some \$2300 above the per capita income of the permanent home owner in America.

And on a further breakdown, the statistics revealed that the average trailer, home owner will distribute \$250 a month in retail trade in his vicinity which for a 100-space trailer park this means that some \$25,000 a month is pouring into the cash registers of the neighboring merchants.

By investment standards today, the 100-space park is considered a minimum operation; most of the "big" money going into the trailer park investment field goes for 200, 500 and 1000-space parks.

The new De Anza Park on the peninsula at Mission Bay in San Diego—which is costing \$1,000,000—will have 1000 spaces, each with a 40 x 40 lot and those on the shore sites will have private yacht docks and beaches.

A park of this magnitude will distribute \$250,000 a month in its neighborhood which is one of the reasons that the City of San Diego welcomes it.

One of the most spectacular trailer parks in the West has just been completed in Salt Lake City, Utah, at an investment of approximately \$250,000 for the first 100 of a planned 500 spaces. Its recreation hall includes sewing and hobby workrooms for its tenants. The roof has been turned into a huge sundeck.

Then, with a nice touch of planning foresight, the designers gave each trailer location a large sunken lawn which is irrigated by flooding. Thus when the ice weather comes, as it does in Salt Lake, each tenant floods his lawn and overnight he has his own skating rink.

These and other inescapable facts indicate that the \$1,000,000 trailer home manufacturing industry in America has left its questionable days behind and moved into the realm of luxury housing.

And, statistics show, some 2,500,000 Americans or one out of each 125 families in the coun-

Grove Theatre Books Top Pictures

Top pictures are heading for Lemon Grove at the Grove Theatre starting with the new year. "Moon is Blue" will play January 3 followed by the picture selected as one of the five best of 1953—"Mogambo" starring Clark Gable and Ava Gardner. This will be the first showing of the picture in this area. Top pictures follow in rapid succession are "Bing Crosby in 'Little Boy Lost,'" Joan Crawford in "Torch Song," "War of the Worlds," "All the Brothers Were Valiant" starring Robert Taylor, "Calamity Jane," Doris Day, "From Here to Eternity," Burt Lancaster, Bob Hope's "Here Come the Girls" will contain the parade of hits that will be seen at the Grove Theatre throughout the winter. Other pictures coming soon are: "Kiss Me Kate," "Three Sailors and a Girl" and "Take the High Ground."

Who's Meeting —And Where

A new feature will be carried in the Review each week. All regular meetings in Lemon Grove will be listed.

If your organization meets regularly and is not listed below please call the Editor at Homeland 6-1168.

Meetings to be held are:
Lemon Grove Chamber of Commerce: first Tuesday each month.
Lions Club: each Thursday evening at Michael's.
Kiwanis Club: each Wednesday Noon at Youth Center.
Youth Control Board: first Monday each month at Youth Center.

Lemon Grove School Board Meeting: second Monday each month at the district's offices.

Fire Department Auxiliary: second Tuesday evening each month.
Lemon Grove Men's Club: Friday noon at Michael's.
Lemon Grove Woman's Club: Meets the second and fourth Friday each month (Club House 2810 Main Street).

Lemon Grove Woman's Club: Meets the second and fourth Tuesday of each month (8 o'clock at the Woman's Club).

You own outright a big bunch of farm produce. How you're going to get rid of it—and much more of the same in your future is discussed here by your secretary of agriculture Farmer's Folly?

By EZRA TAFT BENSON
day's farm problem must provide methods for reducing our huge stockpile of agricultural commodities and at the same time prevent further burdensome accumulations.

Getting rid of these surpluses is only half of our problem. Even if we were able to bring them down to manageable proportions, we would soon acquire new hoards of wheat, corn, cotton and butter under the existing system of price support.

We already have approximate-

try, has accepted the trailer way of life as a permanent way of living.

Step-By-Step Plan Helps the Family Intent on Modernizing the Home

Ready to modernize your home? A step-by-step plan will help, says Home Modernizing magazine.

1) Sharpen up a pencil. It's your No. 1 modernizing tool.

2) Call a family conference. Let every member tell what he thinks needs doing, and put all the projects down on paper—where you can afford to shoot the works?

3) Grade the projects. If there are several, listing them as first priority jobs or ones that can wait is necessary.

4) Sketch up plans—preferably scale drawings, on graph paper. Make all your changes on paper, where they won't be costly.

5) Consult an architect, if possible. He will pay for himself, particularly if the project is sizable. He will tell you whether your plans are practical, will help you choose the best materials and equipment, and will, if you wish him to, supervise the work.

6) Decide on the material and equipment you want. There is a vast variety of new and improved materials and equipment on the market—even new tools with which to do the work. Acquaint yourself with them all before you commit yourself.

7) Divide the work. Figure out what portion of it you can do yourself, but do not undertake projects that call for more time—and skill—than you can give to them.

8) Cost estimates are now in order. Find out whether you can afford the work you want, on both your top priority projects and those that can wait. If you have an architect, he can put out the plans for bids by contractors. If you do not have an architect and don't know builders, check with your local lumber company for the names of a few. With cost estimates in, you can begin

dumping or destroying food, offer a far sounder approach to our basic problems.

Along those lines, I can report that our promotional campaign, undertaken with the meat industry and food stores, is producing real results. We are consuming

\$2.5 billions tied up in loans on farm commodities, in addition to an equal amount invested in goods which we own outright—\$5 billions in all.

Our present program does not encourage the production shifts which are required to meet the changing market demands for various commodities.

Of course, we could destroy some of our surpluses. Remember the government's potato fiasco of a few years ago?

Or we might plow under every third row of cotton and kill little pigs. Remember the mid-1930's? Actually, we would not even consider such wasteful practices.

We are attempting to move surplus food and fiber into foreign markets. World prices, however, are well below the figures at which we acquired these commodities under our price support operations. This means that we will be forced to take substantial losses on whatever we sell abroad.

At the same time, we must avoid outright dumping, which would disrupt normal trade channels and bring down upon us the wrath of other friendly countries.

There are these other alternatives: We can make a real effort to move surpluses out of warehouses and into stomachs by promoting greater public consumption of some commodities. We can push forward in our research programs to uncover new uses for farm goods. We can throw our entire weight behind plans for expanding present foreign markets and finding new outlets overseas.

Such methods, while they will not produce results as quickly as

to consider paring down your projects to what you can afford. But do not make any decisions on this until you check your financing sources—you may be able to swing more projects than you think.

9) Financing comes next. There are a number of ways in which to obtain modernizing loans, including FHA Home Improvement Loans, open-end mortgages, banks' own home improvement loans, mortgage refinancing, private borrowing, credit union loans, lumber dealer's and appliance sellers' financing, and others. Possibly the wisest course is to start negotiations with the bank or loan association that holds the first mortgage on the property to be improved.

10) Get your workmen. If you have an architect on the job, he will get for help you get a contractor or the individual workmen needed. If you have a general contractor, workmen are his responsibility. If you have nobody lined up to do the job, your local lumber company will steer you to reliable craftsmen.

11) Check your local building codes and zoning regulations. If any extensive alterations are called for. You may find that your planned garage must be several feet behind the house, or a number of feet in from the lot line; or that the two-family home you plan to construct out of your one-family residence is forbidden by local zoning regulations.

12) Buy your materials, and arrange for their delivery before the workmen appear, to save the cost of idle workmen and workmen's call-backs.

With these steps you can launch your all-out modernizing drive for more comfortable living for the entire family.

NEW ADDITIONS TO SOVIET RUSSIA'S 'BIG

WESTERN WORLD IS SPECULATING on whether Marshal Ivan Koniev (left), chairman of the Supreme Soviet, and Nikita Khrushchev (right) have been given authority under Malenkov (center) which may mean the demotion of Molotov. (Inter)

beef this year at the rate of 75 pounds per person, the highest in our history.

Farm exports have turned upward since July 1, reflecting our emphasis on expanding trade. Continued high employment at home, with national income at record levels, means a strong demand for farm goods in the United States.

Our population is growing at a rate of more than 2,000,000 per year, which means that by 1975 there will be 200,000,000 Americans. Our future farm problems may involve questions of shortages, rather than surpluses.

We cannot wait for an expanding population to solve our immediate troubles, however. We need an interim program to encourage shifts to other crops. We must halt further build-ups of government stockpiles now.

Our urgent need is for a price support program which can be adjusted in terms of production and demand. One which will effectively reduce surpluses, with a minimum of government con-

Milk Goat Meeting Is Sunday

The regular monthly meeting of the Southern California Milk Goat Association will be held on Sunday, January 3, 1954 at the Grossmont Agriculture Building on Madison, one block west of Mollison, in El Cajon, California. Potluck lunch is at 12:30, sharp. Business meeting is at 1:30. Visitors are welcome.

RELLA'S PRODUCE A NEW SON

Ralph and Anna Rella are the proud parents of a new baby boy born December 28th at La Mesa Hospital.

He weighed 8 pounds, 2 ounces and has been named Nicholas. The parents operate a shoe store on Broadway.

That is our immediate goal. Such a program will be offered to Congress by this Administration in January.

HOT WATER HEATER

Don't get into hot water your automobile's heater installation of an automatic water heater is essential. This type of heater is installed so that the water heater will be at least below the water level of radiator, and lower if possible.

ADmiral KIKI NOMURA, the U.S. and

in Washington at the Pearl Harbor, had a feeling on the matter in Los Angeles, Dec. 7, 1953: "I did not right away a war. From on I thought talks might continued and I would called to Tokyo. . . . I was this war and against the title pact which antagonized U. S. . . . I was in the service to keep peace; my mission. . . . Fortnight."
